Choose a Package with a set of Features for the best value: *all prices are in USD*

Package	Included Features	Subscription* duration, months	WPF	WinForms	WinForms + WPF	Source code
Bronze	XY	12	1290	1290	1806	-
		24	1935	1935	2709	-
Silver	XY + 3D	12	1990	1990	2786	-
		24	2985	2985	4179	-
Gold	XY + 3D **+ Polar + Smith + Maps + Signal tools**	12	2490	2490	3486	1490
		24	3735	3735	5229	2235
Platinum	XY + 3D + Polar + Smith + Maps + Signal tools **+ Volume rendering**	12	3990	3990	5586	1490
		24	5985	5985	8379	2235

We also offer free Gauges controls (source code is available for purchase):   *all prices are in USD*

Product	Subscription* duration, months	WPF & Silverlight	Source code *(it is also included in the source code of Gold & Platinum packages)*
Gauges Controls	n/a	0	500

***Subscription** duration indicates the time, during which you will receive unlimited technical support and updates. Subscription expiration ends these services. You can extend them by purchasing a subscription renewal.*

Benefits of Source code subscription:

- **Full C# source code of the libraries.** No inaccessible C++ parts.
- Modify the library and build a custom version
- Optimize performance of your application when running without code obfuscation; see clearly where CPU and GPU power are spent
- Instant access to source code, no need for escrow service
- Over 1 million of rows of code, including around 5000 properties and public methods
- Full source code debugging and availability to get support with code changes

TERMS

1) **Renewals:**
   - Renewal for **12 months** = **50%** of the **12-month** subscription price of this product.
   - Renewal for **24 months** = **50%** of the **24-month** subscription price of this product.

2) **Team Discounts:** We offer progressive discounts for teams of 4 and more developers. Please contact sales@arction.com for more information.

3) **Source Code:** In case of purchasing a Source Code, it is to be obtained for each purchased license.
   Note: LightningChart Gold & Platinum Source Codes also include Source Code for Arction Gauges.

4) **Upgrades:** Upgrading the subscription costs the price difference between higher tier and the subscription you currently have. For more information please contact sales.

5) **Floating license:** Can be installed and used by several developers on multiple machines. One developer can use a floating license at a time. This license costs 2.5 x equivalent single developer license price. Floating license needs internet connection to Arction licensing server.**
   ** contact sales@arction.com to check the availability of a customer-side floating license service.

If you have any questions about custom licensing terms, e.g. for non-commercial license uses, please contact sales@arction.com
